Appropriate Use of Computer/Online Resources

Appropriate Use of Computer/Online Resources:

Students participating in the Dual Credit/Shared Course Program at Harper College have the opportunity to use a variety of computerized resources. With this educational opportunity comes responsibility, to be shared by the student user, parents(s)/guardians(s) and College staff. Please read the following guidelines carefully, and then sign the Appropriate Use of Computer/Online Resources agreement below.

Responsible Use of Equipment:

Students should not play online games, participate in “chat rooms” or use computers for nonacademic activities unless given specific permission by the class instructor. Students will be allowed Internet access only when it relates to classroom work. Otherwise, students are restricted to using the software that pertains to their specific class. Students should not waste or take supplies such as paper, toner cartridges or jump drives.

Ethical Use:

If the class requires online access, the students should upload or mail only material that is accurate, inoffensive, non-threatening and legal. If, at any time, the classroom instructor or other students find a student’s online viewing/writing to be threatening or offensive, that student will have their online access restricted. Students who repeatedly seek out inappropriate information or who publish offensive information will have their access revoked. Students should tell the classroom instructor if they encounter any information online that is offensive, excessive violent, and obscene or makes them uncomfortable. The computers at Harper College do NOT have screening software—any site on the Internet may be accessed from the Campus. Harper College cannot be held responsible for online materials found/published by students, even if those materials are offensive, but every attempt will be made to prevent students from viewing/publishing such materials. Students must follow copyright laws pertaining to web authorship, plagiarism, etc., as explained by their instructor(s).

Safe Use:

Student should not give out personal information (full name, address, phone, social security number, for example) while online. Students should not give out personal information about other people. Students should never agree to meet in person someone they have met online. Students may not use online resources or computers at the College to purchase materials or services. Students may not download any type of software, plug-in, etc., to a computer on the College campus. Students who do not follow these safety guidelines may have their online access restricted or revoked.

I have read and fully understand the Appropriate Use of Computer/Online Resources contract.
