96%

Student satisfaction rate after course completion

90%

Passing rate of students who pursued certification after completion of a certification preparation course

"Instructor's field experience put the information in real life scenarios. Easy to relate to the group of people I work with."

"The examples allowed me to apply the procedures and helped me to increase my knowledge. Thank you so much!"

"Relevant information and the instructor was knowledgeable on the subject. Interactive learning environment."

SAFETY CLASS PARTICIPANTS

Why Community Education - Career Training?

Harper College is a premier educational institution offering employers an opportunity to collaborate in developing and aligning learning programs to better prepare their workforce with the skills needed to be successful. Our career and safety courses are led by instructors who have extensive experience in their field of study and are delivered in a remote (Online LIVE) learning environment.

CUSTOMIZE

Let us help your team succeed. We'll work with you to align training to the specific skills your organization needs.

FLEXIBLE

Our training courses are scheduled to accommodate working professionals.

VALUE

Training your employees doesn't have to be expensive. We offer employer discounts for many training courses and our safety awareness courses are free for qualified businesses (249 or fewer employees).

RECOGNITION

Continuing Education Units (CEUs) and digital badges are issued upon successful completion of courses.
