Strategic Plan Dashboard

The Harper College Strategic Plan (2010-2015) is the result of a community-based planning process that recognized the shared responsibility for workforce and economic development and the student success agenda. The following dashboard displays the four strategic directions and nine goals, as well as the long-term targets for these goals. Progress on the goal targets is identified as:

- **In Progress – Needs Attention**: Indicates that additional attention and effort is needed if the 2015 target is to be achieved.
- **In Progress – On Target**: Indicates that this is an annual target that has been met for the current fiscal year OR that current activities are resulting in significant progress on this target and it is projected that the 2015 target will be achieved.
- **Target Achieved**: Indicates that the initiative(s) associated with this target has been institutionalized or that this is a one-time target and has been achieved.

Additional information on the directions, goals or targets can be obtained by clicking on the desired area of the dashboard.
