

2012-2013 Annual Update

Goal - Create “stackable” career and academic pathways that incorporate industry-relevant and postsecondary credentials which lead to a sustainable income.	
Goal targets	Status/Progress
Students and the general public will have access to at least 25 career programs presented in a coherent, labor-market driven career ladder or lattice format both in print and online.	<p>In Progress – On Target. Of Harper’s 34 career programs, 32 have fully-developed career pathways. This includes certificate and degree paths, job/labor market information, information about industry and professional certifications/licensure, and links to 2 + 2 baccalaureate agreements. The final schematics for these pathways are being approved by each career coordinator.</p> <p>Discussions about where and how to post the pathways so that they can be fully integrated into both the new online catalog and the various career program pages are in progress. A web designer has been contracted to accomplish these tasks.</p>
Overall accomplishments	
<ul style="list-style-type: none"> • Completed 12 additional career ladder templates. • Developed graphics to display career ladders in an easily understood format. • Began planning for web and catalog integration of career ladder templates. 	
Active strategies associated with this goal
