MANAGEMENT SEMINARS AND WORKSHOPS

For three years Harper College has successfully conducted seminars and workshops for managers seeking to increase their job effectiveness. These seminars are designed for the manager and supervisor in business, education, government, health and other fields. The primary purpose of these seminars is to:

- help managers do a better job in their current assignment,
- prepare them for the job ahead,
- give them new perspectives through exposure to peers in a wide range of business.

Our programs focus on helping the manager understand and apply "on the job" those principles and techniques designed to improve job performance. Harper College, guided by our Industrial Steering Committee, is pleased to present these programs which provide local organizations with an opportunity to receive the highest quality training opportunities while avoiding the expense of travel and high registration fees --not to mention loss of time to companies sending their managers to seminars at distant locations.

REGISTRATION

Enrollment in these programs is limited, so please register now by completing the registration form which appears in this schedule. Send it to the Community Services Office, A362, at Harper College, or phone 359-4200, ext. 248. Except where noted, this program begins with coffee and rolls from 8:30-9:00 am and runs to 4:00 pm.
