MANAGEMENT SEMINARS AND WORKSHOPS

For two years Harper College has successfully conducted seminars and workshops for managers seeking to increase their job effectiveness. These seminars are designed for the manager and supervisor in business, education, government, health and other fields. The primary purpose of these seminars is to:

--help managers do a better job in their current assignment,

--prepare them for the job ahead,

--give them new perspectives through exposure to peers in a wide range of business.

Our programs focus on helping the manager understand and apply "on the job" those principles and techniques designed to improve job performance. Harper College, guided by our Industrial Steering Committee, is pleased to present these programs which provide local organizations with an opportunity to receive the highest quality training opportunities while avoiding the expense of travel and high registration fees - not to mention loss of time to companies sending their managers to seminars at distant locations.

REGISTRATION

Enrollment in these programs is limited, so please register now by completing the registration form which appears on this page and sending it to the Office of Evening and Continuing Education, Harper College, c/o Dr. David A. Groth, or by calling 359-4200, ext. 248. Except where noted this program begins with coffee and rolls from 8:30-9:00 am and runs to 4:00 pm.

MANAGEMENT DEVELOPMENT PROGRAM

Listed below are the seminars which make up this program for middle and upper level managers who seek the highest degree of success and competence on the job. Companies and organizations are encouraged to enroll their managers in all five of these seminars to receive a complete management training program; however, individuals may register for single seminars if they so desire. Individuals attending all seminars will receive a certificate of recognition at the completion of the program. The registration fee for the complete program is \$225.00.

MANAGEMENT BY OBJECTIVES

Art Deegan - University of Michigan January 13 & 14, 1972 Fee: \$80.00

Dr. Deegan introduces management by Objectives which can help the participant learn a system that transforms paperwork and misunderstanding into a dynamic performance planning program. This seminar is a "must" for every manager seeking to improve his individual effectiveness.

MOTIVATION

Dr. Earl Brooks - Cornell University February 24, 1972 Fee: \$40.00

This seminar will help the manager develop an action plan for 1972 which includes accomplishing management innovations and development of self and subordinates. The participant will come away with a motivation plan for improved performance in 1972.

EFFECTIVE COMMUNICATIONS

Dr. Ron Brown - University of Minnesota February 3, 1972,9:00 am-4:30 pm Fee: \$40.00

Dr. Brown presents a unique approach to the most important elements of communication - - listening and persuasion.

MANAGING MANAGEMENT TIME

Dr. Michael L. Moore - Michigan State University March 30, 1972 Fee: \$40.00

While knowledge and expertise are the main assets that a manager has to offer, effectiveness is determined by his maximum use of these assets in the time he has available. Research has shown that the proper management of time contributes more to effectiveness than any other factor. This seminar is a "must" for the upward mobile manager.

TEAM BUILDING

Herb Cohen - Performance Management, Inc. Bureau of Industrial Relations University of Michigan May 5, 1972 Fee: \$40.00

The higher up the organizational ladder the manager goes, the more he is required to deal with the subjective realities of organizational life. This seminar will help the participant to become a more effective performer by learning the techniques of building an effective management team.

SUPERVISORY DEVELOPMENT PROGRAM

The following program is designed for the first-line supervisors newly appointed to their jobs or without formal introduction to management objectives and theory. Companies and organizations are encouraged to enroll their first-line supervisors in this complete training program. Individuals may enroll in single workshops; however, certificates will be awarded only to participants who attend all five programs. The registration fee for the complete program is \$180.00.

SELF-IDENTITY

The Investigation Into Identity Program is designed to offer you an opportunity to examine your life and your self. Its aim is to help you know and strengthen the person you are, beyond the roles you have been asked to play by society.

Today's woman has reason to be confused. The concept of the role of women is changing rapidly in our society. Her personal role changes as her children mature and her husband advances. She is asked to lead several lives during her lifespan. It can become increasingly difficult for her not to lose contact with her real self - the person she is beneath her roles.

The Investigation Into Identity is not a program for the woman with deep emotional problems. It is not designed to "liberate", change or promote any one way of life. Its aim is to help you better understand yourself so that you can find your personal answers to your personal needs.

The subject matter of the program will always be you and never an ideal we feel you should be. We will not be so general that we do not touch you. We will not be so specific that we crowd you. Rather we will attempt to help you probe deeply into yourself that you can choose how best to live your life as you. By sharing this experience with others, we feel you will learn what you cannot learn alone.

The Investigation Into Identity Program will be held:

Tues. & Thurs. 9:00 am-11:45 am February 8 - March 2, 1972 Wed. 7:00 pm-9:45 pm and Sat. 9:00 am-11:45 am April 5 - April 29, 1972
