HLC Pathways for Reaffirmation of Accreditation:

The Open Pathway

Background

The Higher Learning Commission (HLC) maintains processes for determining eligibility for accreditation, for achieving candidacy status, for achieving initial accreditation, and for maintaining accreditation. Since 1999 the Commission has offered two programs for maintaining accreditation: the Program to Evaluate and Advance Quality (PEAQ) and the Academic Quality Improvement Program (AQIP). In September 2012, the Commission began a three-year transition during which PEAQ will be replaced by two new Pathways, the Standard Pathway and the Open Pathway. This document describes the Open Pathway.

The transition timeline is provided in Section 2. A companion document describes the Standard Pathway. (AQIP will continue as another pathway for maintaining accreditation and is not affected by these changes. A description may be found at http://www.ncahlc.org/AQIP/AQIP-Home/.)

Introduction

Regional accreditation assures quality by verifying that an institution (1) meets threshold standards and (2) is engaged in continuous improvement. In PEAQ, these requirements are addressed through the self-study and a subsequent campus visit. Both the self-study and visit are shaped primarily by the Criteria for Accreditation rather than by the institution's particular needs at a particular time. For many institutions, this is reasonable and appropriate. For an institution where the threshold standards are in little doubt, however, this approach may add only modestly to the institution's improvement. Furthermore, in a time of rapid change, the public has grown skeptical of quality assurance for any institution that appears to look at the institution only once every ten years. The new Pathways for maintaining accreditation seek to offer greater value to institutions and greater credibility to the public.

Both the Standard and Open Pathway feature: a ten-year cycle, a focus on both assurance and improvement, Assurance Reviews in Years 4 and 10, and the use of the HLC electronic Assurance System. All Commission Pathways require: annual filing of the Institutional Update (formerly known as the Annual Institutional Data Update or AIDU), annual monitoring of financial and non-financial indicators, and adherence to Commission policies and practices on institutional change.

Section 1.
The Open Pathway

Overview

The Open Pathway seeks to achieve the following goals.

- To enhance institutional value by opening the improvement aspect of accreditation so that institutions may choose Quality Initiatives to suit their current circumstances

- To reduce the reporting burden on institutions by utilizing as much information and data as possible from existing institutional processes and collecting them in electronic form as they naturally occur over time

- To enhance rigor by checking institutional data annually (Institutional Update) and conducting Assurance Reviews twice in the ten-year cycle

- To integrate as much as possible all HLC processes and HLC requests for data into the reaffirmation of accreditation cycle

Factors in Determining Participation in the Open Pathway

The Commission determines whether an institution may participate in the Open Pathway. This determination is based upon the institution's present condition and past relationship with the Commission. An institution may participate in the Open Pathway if, at the time of the determination, it:

- has been accredited for at least ten years;

- has not undergone a change of control, structure, or organization within the last two years;

- has not been under Commission sanction or related action within the last five years;

- does not have a history of extensive Commission monitoring, including accreditation cycles shortened to seven or fewer years, multiple monitoring reports, and multiple focused visits extending across more than one accrediting cycle;

- has not been undergoing dynamic change (e.g., significant changes in enrollment or student body, opening or closing of multiple locations or campuses) or requiring frequent substantive change approvals since the last comprehensive evaluation;

- has not raised significant Commission concerns about circumstances or developments at the institution (e.g., ongoing leadership turnover, extensive review by a governmental agency, patterns identified in financial and non-financial indicators).

If conditions at the institution change in relation to these factors or the institution fails to make a genuine effort at its Quality Initiative, it may be limited to the Standard Pathway for the next cycle.

Assurance and Improvement in the Open Pathway

The Open Pathway separates the continued accreditation process into two components: the Assurance Review and the Quality Initiative.

- Two Assurance Reviews take place in the ten-year cycle; one in Year 4 and one in Year 10. The Year 4 review occurs asynchronously through the Commission's online Assurance System and without a visit. The Year 10 review also is conducted with the Assurance System but includes a visit to the campus, as noted below. No change requests may be combined with the Year 4 review; all change requests at Year 4 are evaluated separately through the Commission's change process.

- Between Years 5 and 9 of the ten-year cycle, the institution proposes and completes a Quality Initiative. The Assurance Reviews free the Quality Initiative to focus on institutional innovation and improvement. The institution undertakes a Quality Initiative as something it elects to suit its own purposes. Its timeframe is flexible to accommodate the amount of time necessary to complete or make substantial progress toward completion.

- In Year 10, the institution undergoes a comprehensive evaluation.

Comprehensive Evaluation

A comprehensive evaluation takes place in Year 10 of the ten-year Open Pathway accreditation cycle. The components of the comprehensive evaluation in the Open Pathway are these:

- An Assurance Review

- A review of Federal Compliance

- An on-site visit

- If applicable, a multi-campus review

In the comprehensive evaluation, peer reviewers determine whether the institution continues to meet the Criteria for Accreditation by analyzing the institution's Assurance Filing (Assurance Argument and Evidence File); a preliminary analysis is followed by a campus visit. The purposes of the visit are to validate claims made in the institution's Assurance Filing and to compare those materials with what the team finds during planned activities while on site.

All comprehensive evaluations include a review of whether the institution meets the Federal Compliance Requirements. (Information on the Commission's Federal Compliance Program can be found at http://www. ncahlc.org/Information-for-Institutions/federal-compliance-program.html.) In addition, comprehensive evaluations include visits to branch campuses as applicable. Comprehensive evaluations may include change requests that the institution wishes to have considered, but only if the request requires a visit to the institution. If a change request does not require a visit, it is evaluated separately through the Commission's change process.

The Assurance Review

The following sections describe the documentation the institution prepares for the Assurance Review, the Assurance Review process, and the on-site visit.

In preparation for the Assurance Review, an institution develops an **Assurance Argument** that has links to materials in an **Evidence File.**

The Assurance System

The Commission's Assurance System is a web-based technology that institutions use in the Standard and Open Pathways to provide an Assurance Argument and evidentiary materials. The Commission provides institutions with secure login accounts for this purpose; likewise, the Commission also provides access to the peer reviewers

assigned to an institution's Assurance Review so that the reviewers may use the same system to conduct the review and write their analysis and recommendation. Campus Labs, LLC, supports the development and hosting of the Assurance System.

The Commission grants access to an institution's space within the Assurance System for:

- one official designee per institution (typically coordinators of the institution's accreditation efforts)
- peer reviewers assigned by the Commission to conduct the review and provide a recommendation
- individuals assigned by the Commission to the decision process
- the institution's Commission staff liaison and other Commission staff as needed

Further, the Assurance System permits the institution to grant access to a maximum of 14 additional individuals (for a total of 15) who may have a central role regarding the Assurance Argument and Evidence File. The institution is responsible for granting or revoking such access; the Commission does not manage these additional accounts. The Assurance System maintains an activity log so that a history of additions, deletions, or changes is available to the institution and the Commission.

The Assurance System offers the option to generate and download a PDF or Microsoft Word version of the Assurance Argument. Once downloaded, the institution may choose to distribute the Assurance Argument in whatever way it prefers, including sharing it with individuals or groups who do not have access to the Commission's Assurance System. This capability is available throughout the process of constructing the Assurance Argument and may prove useful in collecting comments for revision before finalizing the Assurance Argument. Use of this feature is optional.

The Assurance Argument

The Assurance Argument is organized by the Criteria and their Core Components. (Institutions address the Assumed Practices only when seeking candidacy or initial accreditation, or under special circumstances such as removal from sanction.)

For each Criterion, the institution offers:

- a Criterion introduction
- an articulation of how each Core Component within the Criterion is met, including a statement of future plans with regard to the Core Component, and, if applicable, an explanation of circumstances that (1) call for improvement, (2) support future improvement, or (3) constrain improvement or threaten the institution's ability to sustain the Core Component
- a statement regarding any additional ways in which the institution fulfills the Criterion that are not otherwise covered in the statements on the Core Components, including any gaps in achievement and future plans with regard to the Criterion
- links to materials in the institution's Evidence File for each statement made

There is no need to distribute equally the amount of text devoted to each Criterion or each Core Component; however, it is important to observe the Assurance Argument's maximum limit of 35,000 words. Institutions are advised that although there may be various ways to circumvent the length limitations on the Assurance Argument such strategies may be counter-productive if the ultimate effect is to exhaust or annoy the reviewers.

The Evidence File

Within the Assurance System, an institution's Evidence File comprises two sections. In section one, the Commission contributes recent comprehensive evaluation and interim reports, a trend summary from the

institution's most recent Institutional Update submissions, copies of official actions and correspondence, public comments, and any other information the Commission deems necessary.

In section two of the Evidence File, the institution uploads its own evidentiary materials that, together with its Assurance Argument, demonstrate that it meets the Criteria for Accreditation. **To the extent possible, an institution is encouraged to use existing materials as evidence rather than create new materials exclusively for the accreditation process.** Examples of such evidence include existing mission statements, budget documents, assessment and curriculum reports, minutes from meetings of governing boards and other prominent committees, and materials submitted to and received from specialized accreditation organizations and state agencies. Relying on existing materials in this way can significantly reduce the burden of generating evidence to support accreditation.

The expectation is that an institution will have a variety of materials relevant to its processes that serve as appropriate evidence. It is possible that a given evidentiary piece may support meeting multiple Criteria for Accreditation or Core Components. The Assurance System provides the ability to cross-reference each evidentiary item to as many Criteria and Core Components as appropriate. However, every evidentiary item uploaded to the Evidence File *must* be specifically linked to at least one Criterion or Core Component in the Assurance Argument; extraneous material provided "just in case" is neither desired nor permitted. This approach contributes to a thoughtful compilation of evidentiary materials that is on-point with regard to the institution's Assurance Argument and does not impede the ability of peer reviewers to examine, comprehend, and evaluate the evidentiary materials and Assurance Argument.

There are several strategies the institution may employ to help the peer reviewers navigate existing materials that are repurposed for the accreditation process. (1) Evidentiary documents in the Assurance System can be configured to open directly to a specific page when accessed. This assists in directing peer reviewers to relevant sections of longer documents. (2) It may be useful to provide explicit guidance to reviewers, such as a descriptive coversheet for a document being used out of its original context or a brief synthesis of raw data involving significant detail. (3) In order to promote full understanding and transparency, the institution should submit documents in their entirety and link to the pertinent pages rather than submit only portions of documents lacking original context.

The burden of writing the Assurance Argument is reduced because the Assurance System allows an institution to link narrative text directly to the appropriate supporting materials in the Evidence File. Therefore, an institution should not provide elaborate historical context or descriptions of the evidence within the Assurance Argument itself. Rather, the institution should make clear, succinct statements as to how the Criteria for Accreditation are met and link them directly to the evidence. This efficiency reduces the amount of narrative needed to convey information to the peer review team and makes it easier for team members to verify institutional claims with evidence. (The Commission no longer requires that the institution maintain a separate Resource Room for the review, as was done under the PEAQ process.) After a comprehensive evaluation, the Assurance Argument remains intact with its linked evidence in the Assurance System. This allows revision rather than complete reconstitution for the next review, offering additional efficiency and reduced burden to the institution.

Evidence supplied by the institution includes some items required by the Commission. Due to the nature of some types of evidence, the Commission has determined that certain items may, if desired, be referenced via external web links to the original source rather than be uploaded directly into the Assurance System. Unless specifically permitted as an external link, all evidence is uploaded directly into the Evidence File area within the Assurance System.

The following chart lists the items that are **required** by the Commission and identifies those that may be externally linked. However, the institution is expected to provide significant additional evidence it determines appropriate to support its Assurance Argument (i.e., the chart is not an exhaustive list of evidence an institution should include). As with other evidence uploaded by the institution, the required materials—whether provided as documents or external links—must be linked to the Assurance Argument in order for peer reviewers to have access to them.

Required documents in Evidence File (significant additional evidence is expected; the specific types of evidence are at the institution's discretion)	Must be uploaded to the Evidence File	May be provided by a link to an external source[1]
Course Catalog/Bulletins		X
Audited Financial Statements	X	
Budgets and Expenditure Reports	X	
Faculty/Staff Handbooks		X
Student Handbooks		X
Class Schedules		X
Mission and Planning Documents	X	
Governance Documents (charters, bylaws, organizational chart)	X	
Faculty Roster (full- and part-time, credentials)		X
Contractual & Consortial Agreements (related to academic programs)	X	
Third Party Comment Notices *	X	
Federal Compliance Materials *	X	

* Definitions of these items are provided in other Commission documentation.

[1] In cases where there is a heavy or exclusive reliance on externally linked evidence to support the Assurance Argument, institutions should consider uploading that evidence into the Evidence File, if possible, rather than linking to it. Doing so, although optional, ensures that any evidence providing a significant foundation to the Assurance Argument is archived for future access if needed.

The Assurance Review Timeline

As indicated in the chart below, an institution's **Assurance Filing** (Evidence File and Assurance Argument) must be uploaded to the Assurance System and ready for review by the time the online Assurance Review is scheduled to begin. Although institutions may wait until a few months before this deadline to upload materials, the Assurance System is available to them throughout the 10-year Open Pathway timeline for uploading and maintaining their information. The Assurance System automatically grants peer reviewers access to an institution's Evidence File and Assurance Argument on the date calculated according to the chart below.

Review	Online Review Begins[1]	Team Visit Begins	Team Visit Ends[2]	Online Review Ends[3]
Year 4	On the start date scheduled	Not applicable unless a visit is requested by the team		When final report is submitted to HLC (usually 10 weeks after online Assurance Review begins)
Year 10	4 weeks before campus visit date	On-campus visit date scheduled	At conclusion of 1½ days on main campus	

[1] An institution may grant access to the Assurance Filing early if the materials are ready; however, once access has been granted to the team (automatically or manually), the Evidence File and Assurance Argument are locked and the institution can no longer add, delete, or modify content. If an institution elects to grant access earlier than the scheduled start date, the remaining due dates on the timeline are not altered (i.e., starting early does not mean that the review will end early).

[2] Typical visits in Year 10 are 1½ days. Some considerations, such as visiting branch campuses, reviewing change requests, or addressing other issues may extend the visit's duration.

[3] In both the Year 4 and Year 10 reviews, the Assurance Review ends upon submission of the final team report approximately 10 weeks after the online review begins. This includes time for the team to review online materials and conduct the visit in Year 10 (and in Year 4, if required*), Commission staff to review an initial draft, the institution to review an initial draft and respond regarding errors of fact, and the team to consider any errors identified by the institution.

The Assurance Review focuses on the evaluation of the institution's Assurance Argument and Evidence File in relationship to the Criteria. Peer reviewers begin the review by conducting individual evaluations of the Criteria and the Federal Compliance Requirements. The team as a whole then conducts a consensus review of all Criteria and Federal Compliance requirements. In the course of the Assurance Review, the team may contact the institution to request additional information or clarification. Within the time period specified in the request, the institution uploads requested materials into an addendum area in the Assurance System that the Commission creates for this purpose. Materials in the addendum area are not linked to the Assurance Argument.

The team chair remains in communication with an institutional representative throughout the online, pre-visit portion of the Assurance Review even when no additional materials or clarification is needed. In the Year 10 review, the team's evaluations inform the activities planned for the forthcoming visit.

> **Team Size for the Assurance Review and the Comprehensive Evaluation**
>
> In most cases, the team size for both the Year 4 Assurance Review and the Year 10 Comprehensive Evaluation is fixed: 3, 5, or 7 individuals, depending on institutional size and complexity. In no circumstance will a peer review team have fewer than 3 members. Although institutional size is the primary determining factor, the Commission may require a larger team for institutions with multiple academic units, multiple degree levels, corporate or state system relationships, or other complexities, including significant concerns in previous reviews. The Commission may assign additional reviewers as needed for other reasons based upon particular circumstances of the institution, such as multi-campus visits that include out-of-state or international locations.

* In exceptional circumstances, the team may extend the Assurance Review in Year 4 to require a visit to explore uncertainties in the evidence. This is expected to occur only when a campus visit would reveal information that is not otherwise available to the team at a distance through methods such as supplemental teleconferences and email exchanges. In such circumstances, the review timeline is suspended temporarily while Commission staff arranges a visit designed to meet the needs identified by the team. If the Year 4 review team requests such a visit, the team conveys to the institution the reasons for the requested visit, including any additional evidence requested, and identifies any individuals or groups with which the team wishes to meet during the visit. A visit during the Year 4 review occurs only after requests for additional information or clarification are not successful at satisfying the team's inquiry. Typically, this visit is planned and concluded within a matter of weeks, at which time the review timeline resumes and the schedule is adjusted accordingly. A team in the Year 4 review may determine that a Core Component or Criterion is not met but only after calling for and conducting a visit to evaluate any issues that may warrant such a finding.

Process for Conducting the Team Visit

The Year 10 comprehensive evaluation leads to reaffirmation of accreditation. It has two components: the electronic Assurance Review followed by a 1½ day on-site visit. The on-campus agenda is not centered on the review of materials that are already available in the Assurance System and evaluated as part of the electronic review, but rather is focused on activities best suited for in-person review and interaction. These activities include validating claims made in the institution's Assurance Argument and Evidence File, comparing those materials with the onground realities of the institution, and meeting with various individuals and groups responsible for the content of the Assurance Argument and Evidence File.

The on-campus agenda includes:

• customary meetings and reviews, including meetings with the institution's leadership, board, and other key individuals and groups, such as those involved in preparing the Assurance Argument and the Evidence File;

- one or more areas of focus determined by the team as needing additional attention for the purposes of validating claims in the Assurance Argument; and

- open forum discussions with faculty, staff, and students, designed in consultation with the institution.

In addition, the visit includes the Federal Compliance review and other evaluations as required or requested, such as multi-campus and embedded change reviews. These additional reviews may be conducted prior to or as part of the on-site visit.

The team chair determines the agenda, but he or she consults with the team and with the institution's leadership in the final weeks before the visit to prepare a schedule that suits the context of the institution and the availability of individuals and groups. Many agenda variations are possible to ensure interaction with the appropriate groups. Some activities may require the attendance of each member of the peer review team, while other activities may be suitably conducted by a subset of the entire team (this determination is also dependent on the team size). Therefore, some activities may overlap, while some activities may not. Some institutional activities should be scheduled only during the first full day, some should be scheduled only during the last half day, and others are suitable for either day, depending on scheduling availability and other considerations.

The team departs the campus at the end of the on-site visit, but may remain in the area to continue its deliberations throughout the afternoon of day 2 and into the morning of day 3. The table below depicts the flow of activities pre-, during, and post-visit.

Electronic Assurance Review—4 Weeks Prior to Visit			
- Team analyzes Assurance Filing - Team holds phone conferences to determine initial findings; may hold discussions with institution - Team chair finalizes schedule in consultation with institution, requesting additional materials be uploaded in the Assurance System, if applicable			
Sample Agenda for the Year 10 Team Visit			
Visit Begins Team arrives and meets evening before visit	**Visit Begins Morning of Day 1, Ends Noon of Day 2** - Customary meetings and reviews - Areas of focus meetings and interviews - Open forum discussions to engage campus constituents - Other (such as drop-in sessions) as designed by team Note: Multi-campus visits and other requested or required reviews may occur before or during the on-site visit		**Visit Ends** Team hold an exit meeting and leaves the campus
Post-Visit Team Deliberation and Report			
Team finishes deliberations	Team completes draft report and discussions with Commission liaison	Team chair sends report to institution for correction of errors of fact	Final report completed

The Team Report and Recommendation

At the conclusion of the online review in Year 4 or the on-site visit in Year 10, the team uses the Assurance System to write its report. In most cases, the team does not interact with the institution at this point in the process but the team may, in exceptional cases, ask for additional information or clarifications prior to finishing the draft report.

In its report, the team indicates that the institution meets the Core Component if:

a) the institution meets or exceeds the expectations embodied in the Component (stated as Core Component is met); or

b) the institution demonstrates the characteristics expected by the Component, but performance in relation to some aspect of the Component must be improved (stated as Core Component is met with concerns).

The institution does not meet the Core Component if the institution fails to meet the Component in its entirety or is so deficient in one or more aspects of the Component that the Component is judged not to be met.

The institution meets the Criterion if:

a) the Criterion is met without concerns, that is the institution meets or exceeds the expectations embodied in the Criterion (stated as Criterion is met); or

b) the institution demonstrates the characteristics expected by the Criterion, but performance in relation to some Core Components of the Criterion must be improved (stated as Criterion is met with concerns).

The institution meets the Criterion only if all Core Components are met. The institution does not meet the Criterion if the institution fails to meet all the Core Components or is so deficient in one or more Core Components of the Criterion that the Criterion is judged not to be met.

The institution must be judged to meet all five Criteria for Accreditation to merit accreditation.

In addition to expressing any concerns as it reviews each of the Core Components or the Criteria, the team may restate any concerns at the conclusion of the report, in conjunction with any recommendations for action or reaffirmation it may make. The team may recommend interim reports or it may recommend that the concerns be addressed in the institution's next Assurance Filing. More serious concerns may lead to a recommendation that the institution be limited to the Standard Pathway. In Year 4, a team must call for and conduct an on-site visit before recommending a sanction or withdrawal of accreditation.

The team makes no reference to Assumed Practices unless in the course of the review it becomes clear that any are not met. The team may provide commentary regarding institutional achievements and opportunities for improvement. In the Year 10 review, the team includes an evaluation of the institution's compliance with the Federal Compliance Requirements.

The Assurance System provides Commission staff access to the team's work so as to enable consultation. After staff review and consultation with the team, the team chair sends the team's draft analysis and recommendation (the team report) in PDF format to the institution for correction of errors of fact. The team revises as it determines is appropriate and submits its final version to the Commission, which then sends the final version to the institution. The institution is given the opportunity to provide a response to the final report.

The Quality Initiative

The Open Pathway requires the institution to undertake a major Quality Initiative designed to suit its present concerns or aspirations. The Commission assumes that strong institutions are continuously engaged in

improvement, without guidance from the Commission. It asks the institution to select one major improvement project that meets its current needs or aspirations and to designate that project as its Quality Initiative.

The Quality Initiative takes place between Years 5 and 9 of the 10-year Open Pathway cycle. A Quality Initiative may be designed to begin and be completed during this time or it may continue an initiative already in progress or achieve a key milestone in the work of a longer initiative. The Quality Initiative must have scope and significance but there is no requirement that it encompass an entire institution. The Quality Initiative is intended to allow institutions to take risks, aim high, and if so be it, learn from only partial success or even failure.

The Quality Initiative can take one of three forms: (1) the institution designs and proposes its own Quality Initiative to suit its present concerns or aspirations; (2) the institution choose an initiative from a menu of topics, such as the following examples:

- the institution undertakes a broad-based self-evaluation and reflection leading to revision or restatement of its mission, vision, and goals;

- the institution joins with a group of peer institutions, which it identifies, to develop a benchmarking process for broad institutional self-evaluation;

- the institution undertakes a multi-year process to create systemic, comprehensive assessment and improvement of student learning;

- a four-year institution joins with community colleges to create a program of dual admission, joint recruitment and coordinated curriculum and student support;

- the institution pursues a strategic initiative to improve its financial position;

- the institution engages in a Commission-endorsed program or process offered by another agency, such as the Foundations of Excellence program offered by the Gardner Institute for Excellence in Undergraduate Education or the LEAP Initiative offered by the Association of American Colleges and Universities;

or (3) the institution chooses to participate in a Commission-facilitated program. Currently, the Commission has one such program, the Academy for Assessment of Student Learning. An Academy for Persistence and Completion is under development.

Quality Initiative Proposal and Its Submission

The institution submits a Quality Initiative proposal to the Commission for approval. The institution completes the proposal using a template provided by the Commission. Quality Initiative proposals are no longer than 4,500 words and are submitted electronically. (Institutions participating in the Academy for Assessment of Student Learning for their Quality Initiative or any future academies follow a separate protocol.)

Quality Initiative Approval

Although Commission staff may advise an institution in the development of its proposal, the approval process is carried out by a peer review panel. Commission staff screens the Quality Initiative proposal, discusses it with the institution if needed, and then forwards it for peer review.

Peer Review and Approval

A panel of two peer reviewers, who are trained to review Quality Initiative Proposals but are not subject-matter experts, evaluate the Quality Initiative proposal based on sufficiency of scope and significance; clarity

of purpose; evidence of commitment and capacity; and appropriateness of timeline. The panel provides observations and constructive commentary, and either approves with or without minor modifications or requests resubmission of the proposal.

Institution Notification

At the completion of the review process, the Commission notifies the institution of the panel's decision. If the panel approved the proposal with or without minor modification, the institution is free to begin its Quality Initiative. In exceptional circumstances, an institution may be requested to resubmit its proposal. It may do so at any time within the approved time period for Quality Initiatives. The same or a new panel of peer reviewers will evaluate the resubmission.

Quality Initiative Report and Review

At the end of the Initiative, but no later than Year 9 of the ten-year Open Pathway cycle, the institution prepares and submits a Quality Initiative Report, in the framework outlined in the approved proposal. Within four weeks of submission, Commission staff screens the Quality Initiative Report for completeness and forward it for peer review.

Peer Review

A panel of two peer reviewers evaluates the Quality Initiative Report, at a distance, and prepares a review that addresses the genuine effort of the institution. If the panel has questions about the institution's Quality Initiative, the panel leader will contact the institution for clarification, typically via e-mail. A record of this communication is included in the panel's review.

The panel's evaluation and recommendation will be based on the genuine effort of the institution: the seriousness of the undertaking, the significance of scope and impact of the work, the genuineness of the commitment to the initiative, and adequate resource provision.

The panel may provide a letter with advice, comments or critique of the report *only if the institution has so requested.* Such a letter is provided directly to the institution by panel members in their personal capacity and not as Commission peer reviewers. The letter occurs outside the accreditation process; it is not shared with the Commission and it is not considered in any subsequent Commission action or future review of the institution.

Final Review and Institutional Response

The panel sends its preliminary review to the institution's Commission staff liaison. The liaison discusses the review with the panel if needed before the panel sends the review to the institution for correction of errors of fact. After receipt of any corrections, the panel revises the review as it deems appropriate and submits the final review to the Commission, which forwards it to the institution. After receiving the final review, the institution provides a written response.

The conclusion to the review is simply a yes/no check-mark that the institution has or has not met the expectation for a genuine effort in its Quality Initiative. That conclusion will be joined with the recommendations from the Assurance Review and team visit in the Commission's decision-making process. If the panel concluded that institution did not meet the expectation for a genuine effort, the institution will lose eligibility for the Open Pathway or AQIP. However, the Quality Initiative review cannot result in monitoring or a sanction.

Commission Decision-Making Process

The Commission's decision process is described in detail in separate documentation. Year 4 Assurance Reviews do not lead to reaffirmation of accreditation. Except in the case of a sanction recommendation or other significant changes that affect the official accreditation relationship, an institution's completion of the Year 4 Assurance Review is reported to the Commission's Institutional Actions Council (IAC), which acts to accept the report and any required interim reports or embedded changes. In Year 10, the Commission staff brings together the reports from the Year 10 Assurance Review and visit and the Quality Initiative and forwards them to the IAC for decision-making. In Year 10, the decision process includes Commission action regarding reaffirmation of accreditation and determines the institution's future Pathway eligibility.

Once the review and decision process are complete, the institution's Evidence File, Assurance Argument, and final team report are archived by the Commission. The institution then regains access to its Assurance System workspace so that it may begin preparing for the next event in its accreditation timeline.

Final Notes

Other Monitoring

The Commission will continue to review data submitted by affiliated institutions through the Institutional Update. This analysis may result in the requirement of additional reports or focused visits. The Commission will apply substantive change processes as appropriate to planned institutional developments, and will monitor institutions through reports, visits, and other means as it deems appropriate.

Public Disclosure

The Commission is in the process of implementing a transparency initiative. As of January 2013, institutions are obliged to use the Commission's Mark of Affiliation on their web sites. Clicking on the mark takes the visitor to the institution's entry on the HLC web site, the Statement of Accreditation Status (SAS). Next, HLC will make available to the public through its web site a redesigned Statement of Accreditation Status and the most recent HLC action letter related to the granting or reaffirmation of candidacy or accreditation. This phase will be implemented in late summer 2013 and will include action letters conveying institutional actions taken by the Board at its meeting in June 2013 and thereafter. Finally, HLC will also make available the team report from the most recent evaluation for initial or continued candidacy or accreditation. This phase will be implemented in or around the 2015-16 year. In the meantime, HLC staff will be testing methods of disclosure of the team report. The Commission will not disclose an individual institution's information on the Quality Initiative Report, although it may report generally on Quality Initiatives in a way that does not identify individual institutions. The institution may choose to disclose information on its Quality Initiative.

Phase-In Timeline

Institutions with PEAQ comprehensive evaluations in years 2012-13 through 2014-15 will continue in the current PEAQ process. Pathway eligibility will be determined following Commission action at the conclusion of those reviews. All other institutions that had previously participated in PEAQ completed the transition to the pathways model—Standard, Open, or AQIP—in fall 2012. See the section on Moving Between Pathways for further information.

Section 2.
Transitioning from PEAQ to the Open Pathway

Master Chart of the Open Pathway Ten-Year Cycle

This chart outlines the cycle for the major components of the Open Pathway—Assurance and Improvement.[1] The chart does not reflect any monitoring that may be required by some component of the Assurance Review, by Commission policy, or by institutional change requests. To create a personalized chart, enter the date of the institution's next reaffirmation of accreditation in the Year 10 column, then enter each preceding year in the previous columns. Use academic years.

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10
Enter Years										
Assurance Process	Institution may contribute documents to Evidence File			Assurance Filing (Assurance Argument and Evidence File)[2] / Assurance Review (no visit[3])	Institution may contribute documents to Evidence File					Assurance Filing (Assurance Argument and Evidence File); Federal Compliance Requirements[2] / Assurance Review and Comprehensive Evaluation (with visit)
Improvement: The Quality Initiative					Quality Initiative Proposal Filed (window of opportunity to submit)	Quality Initiative Proposal Reviewed	Quality Initiative Report Filed	Quality Initiative Report Reviewed		
Commission Decision-Making				Action to Accept Assurance Review[4]						Action on Comprehensive Evaluation and Reaffirmation of Accreditation[5]
Other Monitoring	The Commission will continue to review data submitted by affiliated institutions through the Institutional Update, will apply change processes as appropriate to planned institutional developments, and will monitor institutions through reports, visits, and other means as it deems appropriate.									

Notes

1 the chart applies to institutions eligible for the Open Pathway (see page 3)
2 some institutions will also file materials for multi-campus review
3 team may require a visit to explore uncertainties in evidence that cannot be resolved at a distance
4 certain team recommendations may require IAC action
5 action on the Year 10 review will also determine the institution's future Pathway eligibility

Key

- Documents filed electronically by the institution
- Review does not include a visit
- Review includes a visit
- Commission actions

From PEAQ to the Open Pathway:
A Transition Calculator

The table below provides an overview of how institutions currently in the Program to Evaluate and Advance Quality (PEAQ) will transition to the Open Pathway ten-year cycle. Customized transition maps for each year are provided on the pages that follow. They are based on the academic year scheduled for the next reaffirmation review. The date is available in the last Commission action letter to the institution. It is also available on the Commission Web site www.ncahlc.org (check "HLC Institutions," then "Directory of HLC Institutions").

From PEAQ to the Open Pathway: A Transition Calculator and Transition Maps

This calculator allows institutions currently maintaining accreditation with the Commission through PEAQ to determine the timing of their transition to the Open Pathway. The transition of eligible institutions began in 2012-13. The calculator should be used in conjunction with the "Master Chart of the Open Pathway Ten-Year Cycle" on page 14.

The right-most column identifies the appropriate Transition Map for each year. **Each Transition Map has been customized to apply to that year. Therefore, it is important to look only at the applicable map. Attempting to compare maps may only cause confusion.**

The calculator applies only to those institutions determined to be eligible for and choosing the Open Pathway. Some institutions will transition to the Standard Pathway.** The AQIP Pathway will be unchanged. Current AQIP institutions may elect to participate in the Open Pathway at a time that appropriately aligns the two cycles. See the section on Moving Between Pathways for further information.

Next PEAQ Reaffirmation Visit Scheduled	PEAQ Visit Actually Takes Place	Year the Institution Transitions to the Open Pathway	Place on Open Pathway Cycle at Transition	Refer to Transition Map
2012-13	2012-13	2013-14	Year 1	page 16
2013-14	2013-14	2014-15	Year 1	page 17
2014-15	2014-15	2015-16	Year 1	page 18
2015-16	n/a	2012-13	Year 7	page 19
2016-17	n/a	2012-13	Year 6	page 20
2017-18	n/a	2012-13	Year 5	page 21
2018-19	n/a	2012-13	Year 4*	page 22
2019-20	n/a	2012-13	Year 3*	page 23
2020-21	n/a	2012-13	Year 2*	page 24

Institutions with reaffirmation of accreditation dates after 2020-21 should use the master chart on page 14 to create a personalized map.

* The Year 4 Assurance Review is waived for institutions in these transition years.

** The factors for determining participation in the Open Pathway appear in Section 1. The Standard Pathway is described in a separate booklet. Non-affiliated institutions interested in pursuing status with the Commission begin with the Eligibility Process. Institutions seeking initial candidacy or initial accreditation follow the Candidacy process. Institutions on Probation or under Show Cause order are on a separate, heightened level of monitoring by the Commission and are not on this or any other pathway.

This document maps the transition of institutions currently scheduled for PEAQ reaffirmation visits based on the ten-year Open Pathway cycle. The transition of all eligible institutions began in 2012–13. All eligible institutions will have transitioned to the Open Pathway by 2015–2016.

Transition map for institutions with PEAQ reaffirmation visits in 2012-13

This chart assumes the outcome of the last PEAQ visit is to place the institution on a ten-year cycle. Other outcomes could place the institution on the Standard Pathway.

Year	2012–13	2013–14	2014–15	2015–16	2016–17	2017–18	2018–19	2019–20	2020–21	2021–22	2022–23

Moving Between Pathways for Reaffirmation of Accreditation: Rules and Timing

As of September 2012, the Commission has three pathways for reaffirmation of accreditation: Standard, Open, and AQIP. This document defines the rules and timing for institutions moving between these pathways.

Rules and Timing for the Transition from PEAQ and AQIP to Pathways

The transition period began in the summer of 2012. These rules are in effect for all institutions with PEAQ reaffirmations in 2012-13, 2013-14, or 2014-15, and those AQIP institutions that do not yet have the option to choose an alternative pathway. They are keyed to an institution's next date of reaffirmation of accreditation. A change of pathway will not result in a change in the timing of the next reaffirmation of accreditation.

1. **Institutions currently in PEAQ**

   - Those with reaffirmation scheduled in 2012-13, 2013-14, or 2014-15 will complete the PEAQ cycle. Upon reaffirmation, the Commission will determine whether the institution should be placed on the Standard Pathway or may choose its preferred pathway—Standard, Open, or AQIP.

2. **Institutions currently in AQIP**

   - Those with reaffirmation scheduled in 2012-13, 2013-14, or 2014-15 must complete the AQIP cycle and reaffirmation of accreditation. At that time, the Commission will determine whether the institution should be placed on the Standard Pathway or may choose its preferred pathway—Standard, Open, or AQIP.

   - Those that are scheduled for reaffirmation in 2015-16 or later but have not completed a full AQIP cycle must first complete the AQIP cycle. Upon reaffirmation at the conclusion of that cycle, the Commission will determine whether the institution should be placed on the Standard Pathway or may choose its preferred pathway—Standard, Open, or AQIP.

Rules and Timing for Future Pathways Transitions

All other institutions have been placed on their chosen or designated pathway—Standard, Open, or AQIP—and the transition has been completed.

- Institutions placed on the Standard Pathway will remain on the Standard Pathway until the Year 10 reaffirmation of accreditation. At that time, the Commission will determine whether the institution remains on the Standard Pathway or may choose its preferred pathway—Standard, Open, or AQIP.

- Institutions that were eligible to choose their pathway will remain on their chosen pathway—Open, Standard, or AQIP—until the next reaffirmation of accreditation. At that time, the Commission will determine whether the institution should be placed on the Standard Pathway or may choose its preferred pathway—Standard, Open, or AQIP.

Eligible institutions may choose to move among the Standard, Open and AQIP Pathways only upon completion of an institution's current cycle. Completion of the cycle is defined as reaffirmation of accreditation in Year 10 of the Open or Standard Pathway or Year 7 of the AQIP Pathway.

An institution that is eligible to choose among pathways will be given 90 days to make that election for its next reaffirmation cycle. After that, the institution must complete the cycle on the pathway it has elected.

As delineated in policy, the Commission may for good cause at any time require that an institution move from the Open or AQIP Pathway to the Standard Pathway. In that event, the institution's date of reaffirmation of accreditation will be set so as to ensure that it falls no later than ten years after its previous reaffirmation. If the institution is placed on probation or under a show cause order, it is removed from any pathway and, when removed from probation or show cause by the Commission, will be placed on a cycle specific to the situation that led to the action.

Pathways Pioneer Institutions

The Commission is conducting a Demonstration Project in which groups of Pioneer institutions are helping design and test the new model. The first Pioneer cohort began in fall 2009; a second Pioneer cohort began in fall 2010, based on participation in the Commission's Academy for Assessment of Student Learning; and a third cohort began in spring 2011, focused on the Lumina Foundation's Degree Qualifications Profile.

Cohort One

Institution Designed Quality Initiatives

Launch Fall 2009

Aurora University (IL)
Black Hills State University (SD)
Bowling Green State University (OH)
Butler Community College (KS)
Case Western Reserve University (OH)
Colorado School of Mines
Cornell College (IA)
Metropolitan Community College (NE)
Mount Mercy College (IA)
Pittsburg State University (KS)
Saint Olaf College (MN)
University of Arkansas-Batesville
University of Wisconsin-Milwaukee
Yavapai Community College (AZ)

Cohort Two

Commission-Facilitated Quality Initiatives through the Academy for Assessment of Student Learning

Launch Fall 2010

Briar Cliff University (IA)
Calvin College (MI)
Dominican University (IL)
Franciscan University of Steubenville (OH)
Illinois Eastern Community Colleges
Illinois State University
Labette Community College (KS)
Linn State Technical College (MO)
Loyola University Chicago (IL)
Maryville University of Saint Louis (MO)
Mesa Community College (AZ)
Metropolitan Community College-Kansas City (MO)
New Mexico Institute of Mining and Technology
Northwestern University (IL)
Phillips Community College of the University of Arkansas
Pierpont Community and Technical College (WV)
Truman State University (MO)
University of Arkansas-Fort Smith
University of Missouri-Columbia
West Virginia University at Parkersburg

Cohort Three

Quality Initiatives Focused on the Lumina Degree Qualifications Profile

Launch Spring 2011

Central Wyoming College
Cochise College (AZ)
Harding University (AR)
Hastings College (NE)
Henry Ford Community College (MI)
Illinois College
Kansas City Kansas Community College
Macalester College (MN)
Marian University (IN)
Marshall University (WV)
Miami University (OH)
New Mexico Junior College
Nicolet Area Technical College (WI)
North Dakota State University
Otterbein College (OH)
Saint Mary-of-the-Woods College (IN)
Saint Mary's College (IN)
University of Chicago (IL)
University of Wisconsin-Whitewater
Westminster College (MO)

AQIP Institutions Testing Degree Qualifications Profile as Action Project

Alexandria Technical and Community College (MN)
Central New Mexico Community College
North Dakota State College of Science

Pathways for Reaffirmation of Accreditation*

	Pathways for Maintaining Accreditation	STANDARD PATHWAY	OPEN PATHWAY	AQIP PATHWAY
A				
B	**Who Participates**	• Required for all institutions granted initial accreditation through the first ten years • All accredited institutions that are not eligible for the other pathways • Institutions that choose this pathway	All eligible institutions that elect to use this pathway	All eligible institutions that elect to use this pathway
